The Board of Directors has granted 6,040,000 options to employees, consultants, directors and officers of the Company. The option grant is the result of the Company’s annual compensation review and the issuance is made under the stock option plan of the Company. This plan was approved by shareholders on September 11, 2017 and allows the Company to issue a number of options up to 10% of its rolling issued and outstanding common shares. Including this issuance, outstanding options represent less than 4% of issued common shares. The options have an exercise price of $0.50 and are exercisable for a period of 3 years from the date of the grant thereof with a vesting period of 12 months.

About the Dublin Gulch Property
Victoria Gold’s 100%-owned Dublin Gulch gold property is situated in the central Yukon Territory, Canada, approximately 375 kilometres north of the capital city of Whitehorse, and approximately 85 kilometres from the village of Mayo. The Property is accessible by road year-round and is located within Yukon Energy’s electrical grid.
The Property covers an area of approximately 555 square kilometres and is the site of the Company's Eagle Gold Deposit. The Eagle Gold Mine is expected to be Yukon's next operating gold mine and, between the Eagle and Olive deposits, include Proven and Probable Reserves of 2.7 million ounces of gold from 123 million tonnes of ore with a grade of 0.67 grams of gold per tonne, as outlined in a National Instrument 43-101 feasibility study. The NI 43-101 Mineral Resource for the Eagle and Olive deposits has been estimated to host 191 million tonnes averaging 0.65 grams of gold per tonne, containing 4.0 million ounces of gold in the "Measured and Indicated" category, inclusive of Proven and Probable Reserves, and a further 24 million tonnes averaging 0.61 grams of gold per tonne, containing 0.5 million ounces of gold in the "Inferred" category.
