COMMUNITY MEETING IN MAYO

ENSURING ONGOING AND OPEN COMMUNICATION BETWEEN VICTORIA GOLD AND THE CITIZENS OF NA-CHO NYAK DUN (NND), within whose traditional territory the Eagle Gold Mine is located, is a core philosophy of the company. The Victoria team is committed to keeping the First Nation, its citizens and the residents of Mayo updated as the mine proceeded to production over the summer and ramps up to full operations.

As part of this commitment, face-to-face community meetings in Mayo are key to upholding the goals and intent of Victoria's and NND's mutually created and implemented *Comprehensive Cooperation and Benefits Agreements (CBA)*.

On November 12, several key members of the Victoria Gold team, including Chief Operating Officer Mark Ayranto, hosted a community meeting at Village of Mayo Curling Rink Mezzanine, which brought together over 30 members of NND Council and citizens and Village of Mayo residents and business owners.

The company provided an update on the mine's operations, Victoria's health and safety operations, employment statistics and the many community involvement initiatives that benefit local residents and businesses.

"Now that the Eagle Gold Mine is in production, it was important that we reach out and present where the Project is now and where it's headed over the next months," says Victoria Gold President and CEO John McConnell. "Our team always enjoys connecting with community members and hearing from them first hand as we continue to invest in the health, cultural and economic sustainability of the community and its citizens."

Since the CBA was signed in October 2011, Victoria has contributed over \$130 million to NND and its citizens, to the Village of Mayo and to the socio-economic strength and vibrancy of the entire Yukon.

"Our next significant milestone will be commercial production in 2020," continues McConnell. **"We continue to be extremely proud of our partnership with NND and look forward to what the next year will bring."**
